
10W Solar Lawn Lamp

10W Solar Lawn Lamp

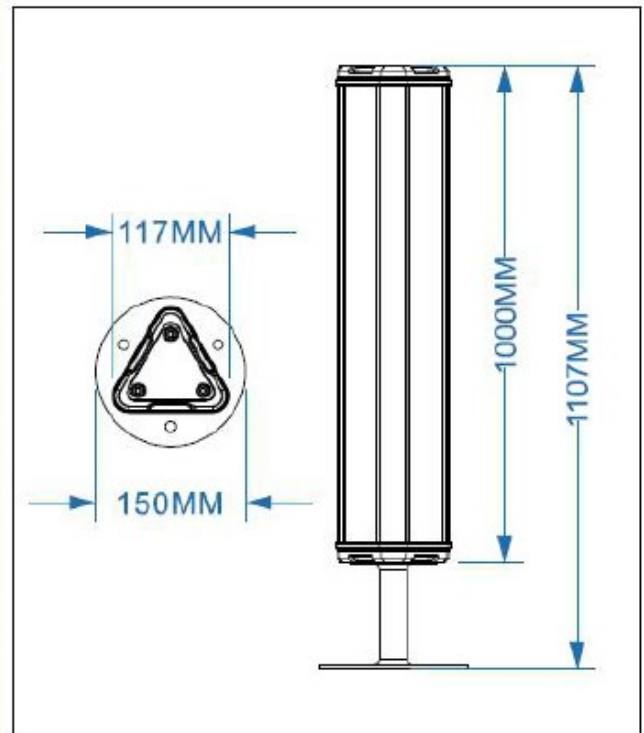

General information:

This product is newly-developed solar wall lamp in 2019. Simple but elegant exterior design, soft light lampshade can keep away from light pollution. And with functions of light control and time control, it can intelligently adjust the brightness following the battery power.

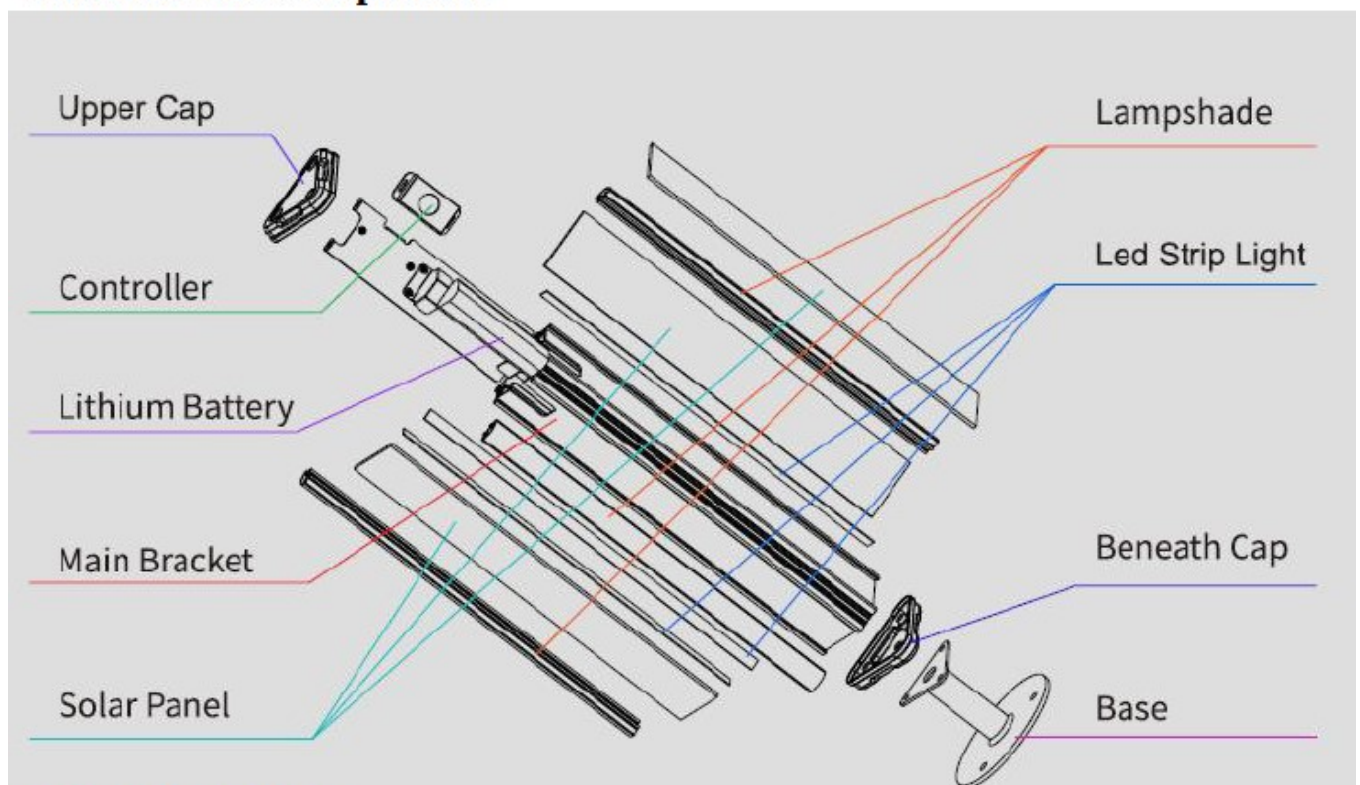

It is quite suitable for garden decorative lighting, such as in villa and private yard for its features of small and exquisite appearance, easy installation and comfortable soft light.

Parameter/1000

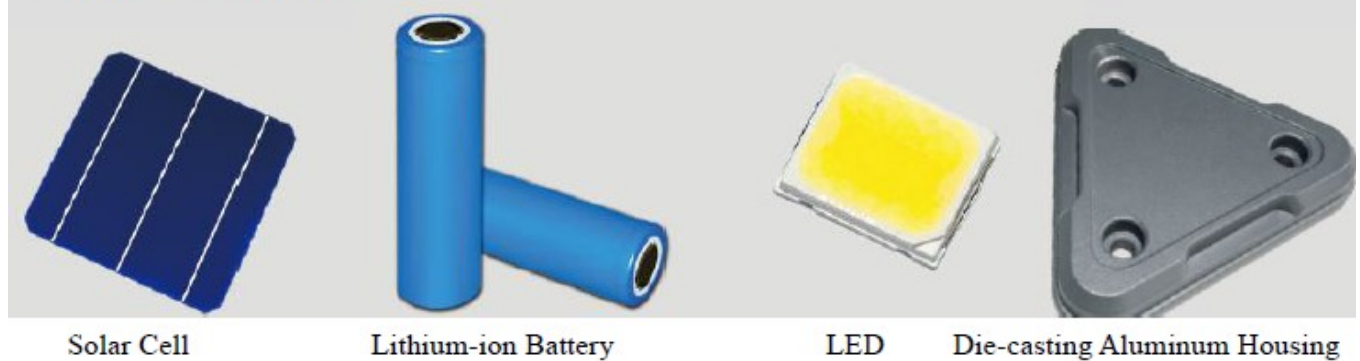

Electrical Characteristic	
Model No.	INU-02-1000
LED Power	10W
Solar Panel Volt/Power	11.5V/21W Mono
Lithium Battery	5.2Ah/7.4V
Color Temperature	2500-6500K
Lumen Flux	1000 LM
Charge time	6-8H
Discharging time	>36H
Working Temperature	-25C ~+65C
Waterproof Level	IP66
Height	1000MM
Recommend Pole Distance	5-10 M
Product Size	φ150*1107mm
Product Weight	6.4 KG
CTN Size/Weight	1165*215*215MM/7.6KG

Structure and Composition

2. Main Components

Installation and Maintenance
